

Autumn Term
2021

Year 6 Learning Journey

French:

This term in Year 6, we will be revising greetings, basic key questions and start basic translation. We also revise months, days of the week, birthdays and colours. Pupils will learn how to pronounce and write classroom objects and pencil case items by creating sentences using connective words.

Computing:

This half term in Year 6, we will be looking at E-safety. Focussing on being a good digital citizen and communicating clearly in a friendly manner online.

During the second half term, we will be learning all about game development! We will be planning, creating and testing our creations to ensure that it achieves the end goal. We will learn how to create our own multimedia games, using PowerPoints multi-media and hyper texting capabilities.

Science:

This term we will be exploring the topics of light and classification. During the very practical light topic, we will be learning about the properties of light, how light travels and how shadows are formed. After half term, the science changes focus from physics to biology where children learn about how scientists classify animals and plants, how they have adapted over time to suit their environment and what impact environmental changes have on each species.

Music:

This term, the children will be learning how to play different ostinato patterns. They will be reading, identifying, playing and composing their own, using body percussion and cup rhythms. They will learn about layers of percussive sound, and think about the pitch and timbre when building their pieces. They will build their knowledge of pulse and tempo and put together class compositions involving movement and dynamics.

PE:

We begin the Autumn Term with a series of fitness and games activities to set targets for the year. We will then further develop tactics and leadership skills in activity areas including Tag Rugby, Basketball, Netball and Gymnastics. There are also opportunities in Badminton, Cross Country and more!

RSHE:

This term we will learn how to use simple strategies to manage our feelings and well-being, including stress. We also will be looking at the benefits of having a positive mind set and how this can influence their mental and physical health.

RE:

In RE, we will be learning about Islam. This will involve learning about daily life, places of worship and religious occasions.
