

Dear Parent/ Carer,

As I'm sure you're aware, it's been a very exciting few days with the children receiving their iPads. The children were fantastic and set up their iPads following all of the correct stages- we were very proud of them!

We are still currently ensuring all iPads in lower school are set up correctly and all apps that are needed have been downloaded. Therefore, your child will not be bringing their iPad home until next week. The children are still able to use them in class in order to support their learning.

We will inform you next week when to expect your child's iPad to come home with them. Thanks for your co-operation.

Many thanks,

Two Mile Ash School
